UPVC Casement Windows

FUSION WELDED JOINTS
 The corners and joints are welded together for close packing and greater strength.

EPDM – WEATHER BLACK BEADING
 The window seals ensure tight sealing and enhance airtight packing. They arrest noise and water leakage.

GLAZING SYSTEM
 Single, double and triple glazing options for arresting noise & energy loss along with air tight sealants with suitable space-bar.

MULTI POINT LOCKING
 To hold the windows strongly with increased security, preventing noise, air and water leakage.

FRICTION STAY
 It is the connection mechanism between sash & outer frame and enables opening of the window to the desired size.

UPVC Sliding Windows

MULTI CHAMBERED
 Impact strength and durability of the windows are ensured with a number of multi-chambered sections.

STEEL REINFORCEMENT RED COLOUR
 Hot dip galvanized to 125 GSM and corrosion free, the steel reinforcement adds strength to the windows

DRAIN HOLES
 It prevents water spilling inside by providing separate drainage chambers to drain out the water

WEATHER SEAL
 Helps to provide a water tight seal and also provides a wind and draught tight seal.

SLIDING ROLLER
 The windows come equipped with slider rollers that ensure smooth manoeuvrability as well as durability.

Product features

Lead Free Profile
Lead being a cancerous agent, we develop lead-free profiles to avoid health hazards to people.

Sound Insulation
Not only do they provide thermal insulation but also special sound insulation. Double glass units can help in sound reduction up to 30 Db.

Fire Retardant
Prominence windows are fire retardant. During fire, once source of fire is removed, a carbonaceous layer is formed preventing supplying of oxygen and stops the spread.

UV Resistance
Prominence windows offer 100% UV resistance with the right amount of TiO2, which helps in retaining whiteness against exposure to the sun.

Durability
Prominence windows do not warp, twist or split. Impact modifiers in our profiles are treated with special additives, thereby making the material extremely long lasting.

100% Recyclable
Prominence avoids contributing to deforestation by using wood alternatives. Prominence windows and doors are 100% lead-free & recyclable.

Bug Mesh Options
Mosquitoes and other bugs are a big menace. To Protect against insects, We have bug mesh option available for our sliding systems.

Excellent Cost Benefit Ratio
uPVC profiles save a lot of costs in terms of maintenance & saving energy when compared to Timber frames which are approximately 40% - 50% more expensive.

*“Put your orders now
Wipe clean and use for years”*
